ACKNOWLEDGEMENT

First of all, the author would like to express the deepest gratitude to Jesus Christ for His grace and mercy so that this research can be completed. The author realizes that there have been so many ups and downs in completing this research but I believe that God is always be with me. Without God's help, the author would have never been able to finish this study.

The author would also like to express deepest gratitude to people who had supported the writer during the process of making this research:

1. The author's parents who always give encouragement and supports relentlessly to the author for not giving up in accomplishing 4 years of study in International Business Management and completing the thesis.
2. The author's friends who give supports in terms of prayers, advices, and suggestions for becoming a better person and getting closer to God so that the author always has spirit to do the best in life and in completing this thesis to glorify God.
3. Ms. Adelina Proboyo, S.E., MBA. as the advisor of this thesis who has been becoming a great mentor with passionate dedication in giving her knowledge, energy, and time to help the author in completing a better quality of research in this thesis.
4. Mr. Ricky, S.E., MRE., Ed.D as the lecturer of Research Method class who has help the students in doing the thesis accordingly with the spirit of the research, and helping the students to create a better quality of research in terms of grammars, content of the research, and the construction of the thesis.
5. Other IBM lecturers who have given their dedication to teach us and share their knowledge through 4 years of study. They have been becoming the great lecturers who have passion in teaching and great knowledge to help the author shaping better way of thinking in facing the business world.
6. Mrs. Anita, Mrs. Lina, and Mr. Poertoyo who have giving their energy and time in order to support the author in completing 4 years of study in International Business Management. The author really appreciates their willingness to help when the author has administration and technical problems during these 4 years.

7. Respondents who have participated in supporting this thesis in terms of their contribution to fill the questionnaires. Without their willingness to help, the goal of this research cannot be achieved. Their contribution is highly appreciated.

8. The author’s friends in International Business Management who have given supports and helps to the author during the learning process in International Business Management. The author would like to express gratitude to Yunita, Kristie, Cika, Cynthia, Natasya, and other friends who can’t be mentioned one by one to become good friends who have brighten the author’s days throughout 4 years of journey in IBM.

Even though the author had tried to give the best effort in completing this research, the author realizes that there are still limitations and flaws as a human that make this report still far from perfect. Therefore, the author would like to humbly welcome any critics or suggestions from readers for the purpose of better quality of research. To close, the author would like to apologize for any mistakes that are made in this research. The author hopes that this research would contribute not only to university education, but it also would be accepted in the business world.
